

EcoBotics

Where Innovation Solves Reality

Egypt's Waste Crisis: A Looming Threat

Inefficient Collection

Manual collection is unreliable

Low Recycling Rates

Hinders recycling industry growth

Economic Costs

Imposes significant financial burden

Open Dumping

Contaminates soil and water

Public Health Risks

Spreads diseases and pollution

Smart Waste Management System

Egypt Waste Management Revolution

Current Waste Practices

Inefficient waste collection and disposal

Eco-Friendly Robotics

Renewable energy-powered waste collection

Artificial Intelligence

AI-driven waste management optimization

Modern Recycling

Advanced resource recovery technologies

Sustainable Egypt

Cleaner, safer, and healthier environment

Empowering Communities for a Cleaner Future

Cleaner Future

The ultimate goal of reducing pollution and improving cleanliness

Job Creation and Economic Development

Creating job opportunities in the waste management sector

Data-Driven Optimization

Utilizing data analytics to improve waste management operations

Municipal and Industrial Partnerships

Collaborating with municipalities and industries

Community Engagement and Education

Raising awareness about waste disposal and recycling

Project Idea

EcoBotics is an eco-friendly robotic system designed to autonomously collect waste from streets and public spaces, sorting recyclable and non-recyclable materials using AI-powered recognition. The system contributes to cleaner and promotes recycling by integrating sustainable and innovative waste management practices.

- ☎ 0822158664
- 📍 Egypt/smart village
- ✉ Ecobotics@gmail.com

Mission

EcoBotics is committed to reducing pollution and improving urban cleanliness through smart robotic waste collection. The system will empower communities, municipalities, and industries to adopt sustainable waste management practices.

Problem Statement

Egypt faces significant challenges with waste accumulation, leading to pollution, unpleasant odors, and public health risks. Traditional waste collection methods are often inefficient, costly, and unsustainable. There is a need for an innovative solution that combines automation, AI, and recycling technologies to address these pressing challenges.

EcoRobotics: Smart Robotics for a Cleaner Future

To revolutionize waste management in Egypt
through robotics, AI, and eco-friendly
technologies.

Autonomous robotic
waste collection

AI-powered recycling &
waste sorting

Integrated with smart
city infrastructure

Promotes sustainability
& innovation

Join us in creating cleaner, safer, and
more sustainable communities.

Description	Frequency	Unit price\$	Total\$
Waste Collection using Robotics	20	250	5000
Recycling & Sorting Service	15	150	2250
Plastic Waste Processing	10	300	3000
Metal Waste Processing	8	350	2800
Subtotal			13,050
VAT (14%)			1827
Total Due			14,877

Payment terms

Method:Bank transfer only

Due date:Within 30 days from invoice date

Advance:30% upfront, balance within due date

Late fee:2% monthly on overdue amounts

Bank Details

Bank: National bank of Egypt
Account: EcoBotics
IBAN: EG12 1234 1234 1234
Swift: NBEDFHFKM

Our Path to a Cleaner Future

The implementation of Ecobotics is expected to achieve the following outcomes:

Significant reduction in street litter and unmanaged waste

Enhanced recycling rates through accurate material classification.

Improved public health by reducing pollution and related hazards.

Positioning Egypt as a pioneer in adopting innovative green

Promotion of sustainability awareness among citizens.

هل فكرت يوماً في كمية النفايات التي تنتجها كل يوم؟

المدن بتواجه تحدي كبير في إدارة المخلفات.
تراكم القمامة بيأثر على البيئة وصحة الناس.
رغم وجود الحلول التقليدية لسه ما وصلناش
للمدينة النظيفة الذكية

الحل جاي من التكنولوجيا

هنا بيحي دور مشروع

EcoBotics

ههنا: بيئة أنظف، مدينة أذكى، ومستقبل مستدام

روبوتات ذكية تعمل بتقنيات الذكاء الاصطناعي
لجمع وفرز القمامة

EcoBotics

بيشتغل ازاي؟؟

• الروبوت مزود بكاميرات ذكية
ومستشعرات لتحليل نوع المخلفات

• ييقرر يفرز المواد
تلقائيا (بلاستيك، معدن، ورق)

• ييخزن البيانات وييتعلم منها
لتحسين الأداء بمرور الوقت

1. SCANNING

2. COLLECTION

3. SORTING

4. DATA TRANSFER

تخيل لو كل مدينة استخدمت EcoBotics

• تقليل النفايات بنسبة كبيرة.
• تحسين جودة الهواء والمنظر العام.
• خلق فرص جديدة في قطاع التكنولوجيا الخضراء.
• مساهمة حقيقية في تحقيق أهداف التنمية المستدامة.

الذكاء الاصطناعي يغير العالم
وأحنا جزء من التغيير

EcoBotics

مشروع مجرد فكرة
دع خطوة لمستقبل أفضل

تابعونا لمزيد من التطورات والتصميمات
الخاصة بالمشروع.

Who We Are

Ecobotics is a technology-driven company that combines innovation with environmental responsibility. We design and develop eco-friendly robotics solutions that aim to make our world smarter and greener.

Our Mission

To create innovative, eco-friendly technologies that inspire positive change and support sustainable development.

Our Vision

A future where technology and nature work hand in hand for a cleaner, smarter planet.
